Has the use existed since November 28, 1975? ☒ Yes ☐ No ☐ Unknown

Comments: The UAA survey was conducted in October 2007 and no WBCR was observed. No interviews were conducted during the survey and no comments were received. However, this water body segment is currently designated as Category A, existing whole-body contact recreation use.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion at 6 out of 19 sites evaluated. Due to the stream meeting the maximum depth criterion, as well as the Category A use designation, the committee recommends the WBCR use designation be retained.
